

NLETS WHAT IT IS WHAT IT DOES

Presented by the KBI Help Desk
KCJIS Conference 2012

Who is Nlets?

- ❑ Official name - The International Justice and Public Safety Network
- ❑ Originally named National Law Enforcement Telecommunications System
- ❑ A 501(c)(3) nonprofit organization, created over 40 years ago by the principal law enforcement agencies of the States.
- ❑ Owned by the states

What does Nlets do?

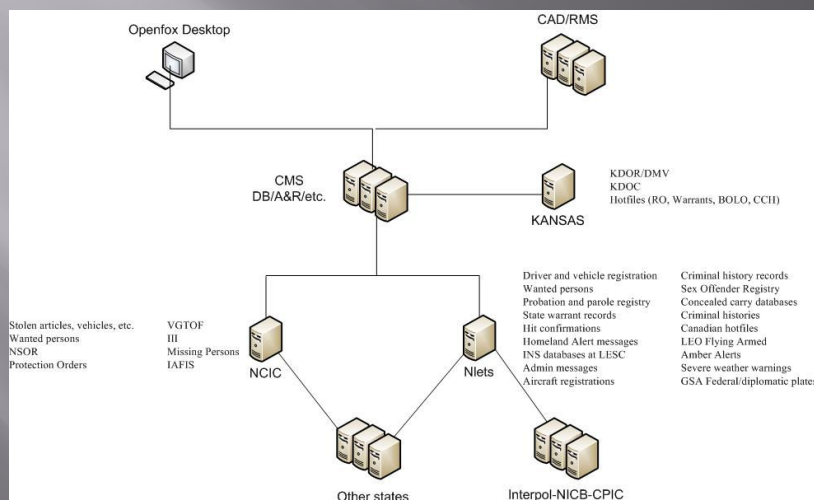

- ▣ Interstate, international, network for the exchange of law enforcement, criminal justice, and public safety-related information.
- ▣ User population is composed of all of the United States and territories, all Federal agencies with a justice component, selected international agencies, and a variety of strategic partners that serve the law enforcement community – all cooperatively exchanging data.
- ▣ Information available: Motor vehicle and drivers' data from other states, Canadian and Interpol databases, state criminal history records, driver's license and corrections images.
- ▣ Operations consist of nearly 1 billion transactions a year to over 900,000 PC, mobile and handheld devices in the U.S. and Canada at 45,000 user agencies and to 1.2 million individual users.

Data Sources Available via Nlets
